

Neverland Theater SUMMER VARIETY SHOW

RECORDING AND FILMING INSTRUCTIONS:

AUDIO:

Whether you are using the microphone on your smart phone, webcam, computer, or a professional recording microphone, please follow these general guidelines when recording and submitting yourself singing:

1. Record yourself in a quiet setting. (No background noise such as people talking, TV, pets.)
2. Test the microphone to make sure you are not singing too close to it so that the sound is muffled or that you are not too far so it sounds hollow/distant.
3. Make sure you are singing with the same energy and enthusiasm as you would on stage.
4. Use headphones to listen to the backing tracks while you sing along (the backing music should not be recorded – only your voice).
5. Save your audio clips as **mp3 files** and e-mail them to neverlandtheater@gmail.com

VIDEO:

Whether you are using the camera on your smart phone, laptop, computer, iPad, digital camera, or other device, please follow these general guidelines when recording and submitting yourself acting/dancing:

1. Always film in landscape (horizontal).
2. Unless otherwise directed, make sure your full body can be seen (feet are not necessary).
3. Make sure there is more light directed at the front of you than behind you.
4. Try your best to record in front of a blank space or area with limited clutter. (Remove glaring distractions from behind you).
5. Save your video clips as **mp4 or.mov files** and e-mail them to neverlandtheater@gmail.com
